OBJECTIVE

Motivated and detail-oriented BCA student at SAGE University with practical knowledge of Python, HTML, CSS, JavaScript, and MySQL and DSA with Java. Experienced in full stack development and developing academic projects based on AI chatbots, web applications, and smart monitoring systems. Seeking an opportunity to apply technical, creative, and problem-solving skills in software development while continuously learning emerging technologies.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Backend: python

Frontend: HTML,CSS

Database: MySQL

Cloud & DevOps: GitHub

DATA STRUCTURE ALGORITHM WITH JAVA

EDUCATION

BCA (AI/DS)

SAGE UNIVERSITY, BHOPAL | CGPA: 8.41/10.0

Sep 2024 - Present

XII (CBSE) (COMMERCE)

ADITYA BIRLA PUBLIC SCHOOL, SIDHI, MP | 83.2%

Aug 2023-May 2024

X (CBSE)

ADITYA BIRLA PUBLIC SCHOOL, SIDHI, MP | 76%

Aug 2021 – May 2022

ACADEMIC PROJECTS

Arcade Game- Interactive Arcade Game Website | [GitHub](#)

HTML, CSS, JavaScript

- Designed and developed an interactive arcade game website featuring engaging browser-based gameplay and responsive user interface. Utilised HTML for page structure, CSS for attractive visual styling, and JavaScript for implementing dynamic game logic, score updates, and user controls.

Tournova: A Smart Tourist Safety Monitoring and Incident Response System | [GitHub](#)

HTML, CSS, JavaScript, Python Flask, SQL, Google Maps API, Blockchain, REST APIs

- Built an advanced tourist safety monitoring application focused on secure and intelligent travel support using AI-driven alerts, geo-fencing notifications, and blockchain-based digital tourist identity verification. Developed features such as emergency panic assistance, multilingual support, and real-time traveler location monitoring.

Chatbot - AI Powered Intelligent Chatbot System|

Python, OpenAI GPT, HTML, NLP, MySQL

- Developed an AI-powered intelligent chatbot system to automate instant communication and deliver real-time responses to user queries. Applied Natural Language Processing techniques including semantic similarity, text embedding, and information retrieval for effective user intent recognition and relevant answer generation.

EXPERIENCE

- Introduction To Modern AI (Cisco networking Academy)** - Successfully achieved student level credential for completing the course | [View Badge](#)
- Data Analysis Essentials (Cisco networking Academy)** - Successfully achieved student level credential for completing the course | [View Badge](#)
- Apply AI Analyse Customer Reviews (Cisco networking Academy)** - Successful achieved student level credential for completing the course | [View Badge](#)
